

Date: 02/02/2026
Name: Dhanya S

I am Dhanya s from [kakunje](#) software working as an intern. Today i had my first session it was interesting and mam had explained well about the HTML and CSS. Today we had learned about the HTML and its elements and the heading file <h1> to <h6>, styling the border and the background color, <pre> tag how it is used, difference between pre tag and p tag, and the paragraph that contains ,,,<small>,,<ins>,<sub>,<sup> how this tags are used, creating a table by giving color, border-radius, border-collapse, padding etc, how to add image and how to add link, [vedio](#), audio etc are the topics learned today.

```
Roses are red,  
Violets are blue,  
Learning HTML,  
Is fun with you.
```

The text inside the pre tag is displayed exactly as it is written in the HTML file. whereas in p tag the text ignores all the spaces, line breaks and the browser will adjust it automatically.

My name is Dhanya
Working in Kakunje software as an intern
at Mangaluru
today we had first session

it was a interesting session

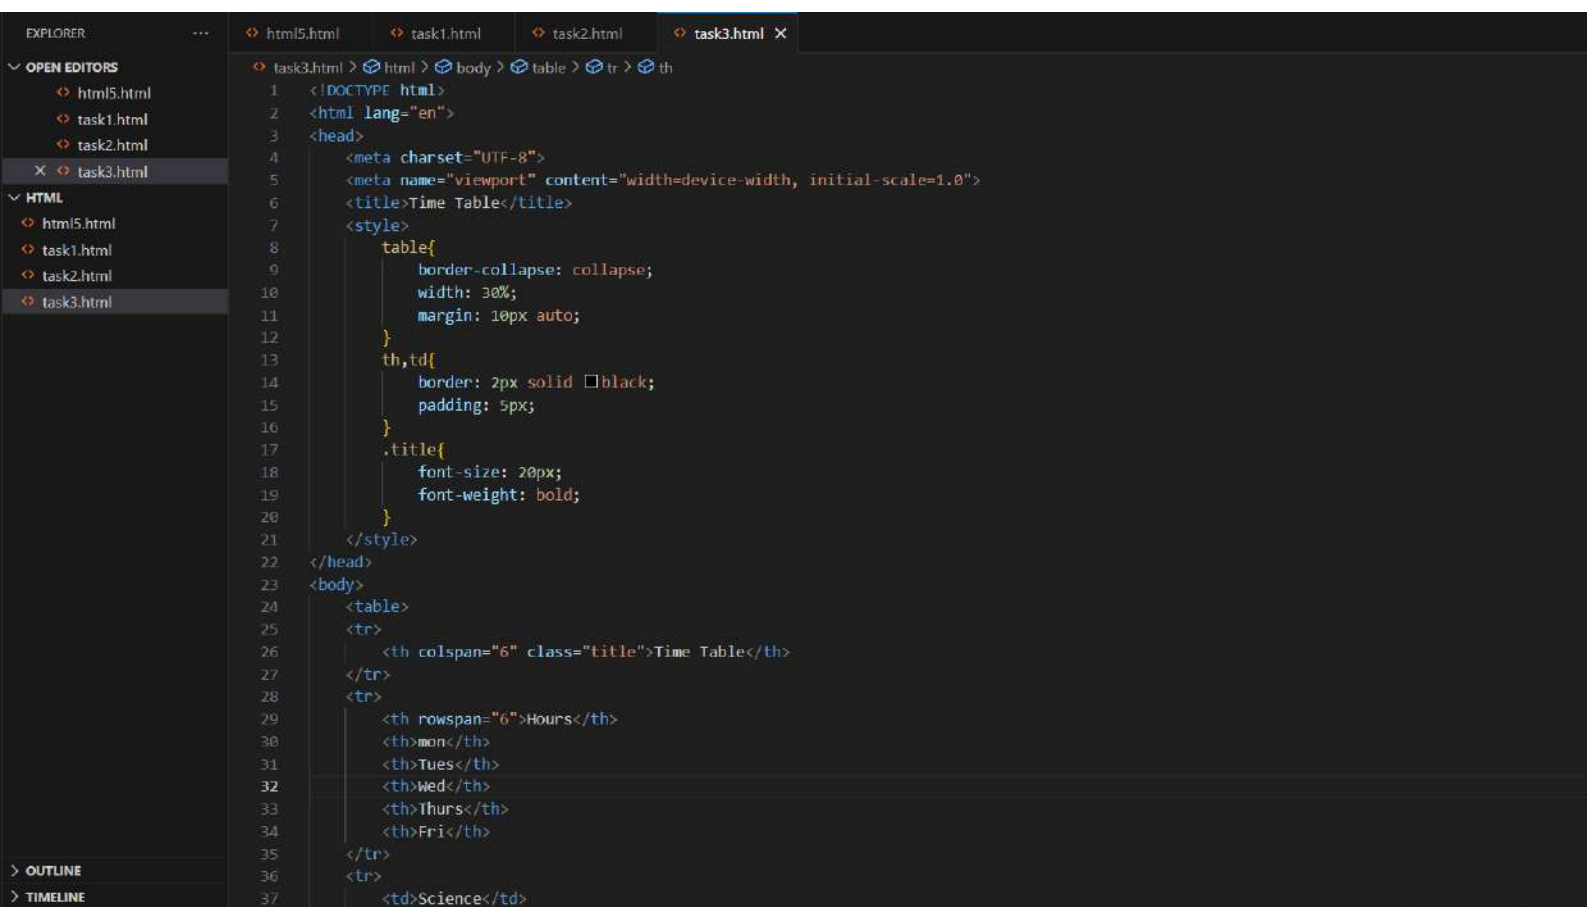

i had learned many tags in html,css

~~network was a problem~~

mam had explained well
