

Date: 12/03/2026

Name: Dhanya S

I am Dhanya S from Kakunje Software working as an Intern. Today I had my 34 session it was an interesting session and mam had taught us about Nodejs. Today I learned about environmental variables(.env), synchronous, asynchronous, setTimeout(), setInterval(), clearInterval(), callback function, callback hell and the solutions for the callback hell are promises and async/await and there are three states in promises that are pending, fulfilled, rejected.

JS server.js > ...

```
1  import http from "http";
2  import dotenv from "dotenv"
3
4  dotenv.config();
5  const PORT = process.env.PORT;
6  const APP_NAME = process.env.APP_NAME;
7
8  const server = http.createServer((req,res)=>{
9    res.write("server creation");
10   res.end();
11 });
12 server.listen(PORT,()=>{
13   console.log("App Name:", APP_NAME);
14   console.log("Server running on Port:",PORT);
15 });
```

PROBLEMS OUTPUT DEBUG CONSOLE TERMINAL PORTS

PS C:\Users\Dhanya\OneDrive\Desktop\nodejs> node server.js
[dotenv@17.3.1] injecting env (2) from .env -- tip: 🔒 encrypt with Dotenvx: <https://dotenvx.com>
App Name: Intern Training App
Server running on Port: 5000

□

⚙️ .env

```
1 PORT=5000
2 APP_NAME=Intern Training App
```
