

Date: 05/02/2026
Name: Dhanya S

I am Dhanya S from kakunje software working as an intern. Today i had my fourth session it was interesting and mam had explained well about the CSS. Today i learned about different types of display elements and different types of properties like static, relative, absolute, sticky, fixed, different overflow properties, width and max-width, how to create a table using html and css, Z-index where 1 represents elements are displayed in the front of the image and -1 represents elements are displayed in the back of the image.

Task 4: Create your personal portfolio using HTML5 and CSS
