

Date: 04/02/2026
Name: Dhanya S

I am Dhanya s from kakunje software working as an intern. Today i had my third session it was interesting and mam had explained well about the CSS. Today I learned about the css and its types internal, external and inline, and different types of selectors, how to add different colors using the tags, to add the background image and to change its position, how to give the border using the css, margin properties, padding and content all these are the types of box model, text transformation, text indentation, text shadow, different types of fonts and also states of link ,sudo selector and styling the list.
