Name: Dhanya S

I am Dhanya S from Kakunje software working as an intern. Today i had my 14 session it was an interesting session and mam had thought us about JavaScript programming language. Today i learned about checking pattern using test methods like for email and phone number validation, error handling, throw method and also this keyword, call method, apply method and bind method are the methods in string, and to reverse the entire sentence, arrow function, JavaScript classes, class method, class method with parameters, JavaScript modules like import and export, JavaScript JSON and debugger.
