

Date: 23/03/2026
Name: Dhanya S

I am Dhanya S from Kakunje Software working as an Intern. Today I had my 41 session it was an interesting session and mam had taught us about connecting the Frontend and Backend. Today I learned about connecting the react and nodejs by creating two separate folders like frontend and backend and inside it creating some folders and files and running that in the terminal and checking it in the postman and MongoDB compass also in the localhost whether it is displaying the login as well as register forms. |

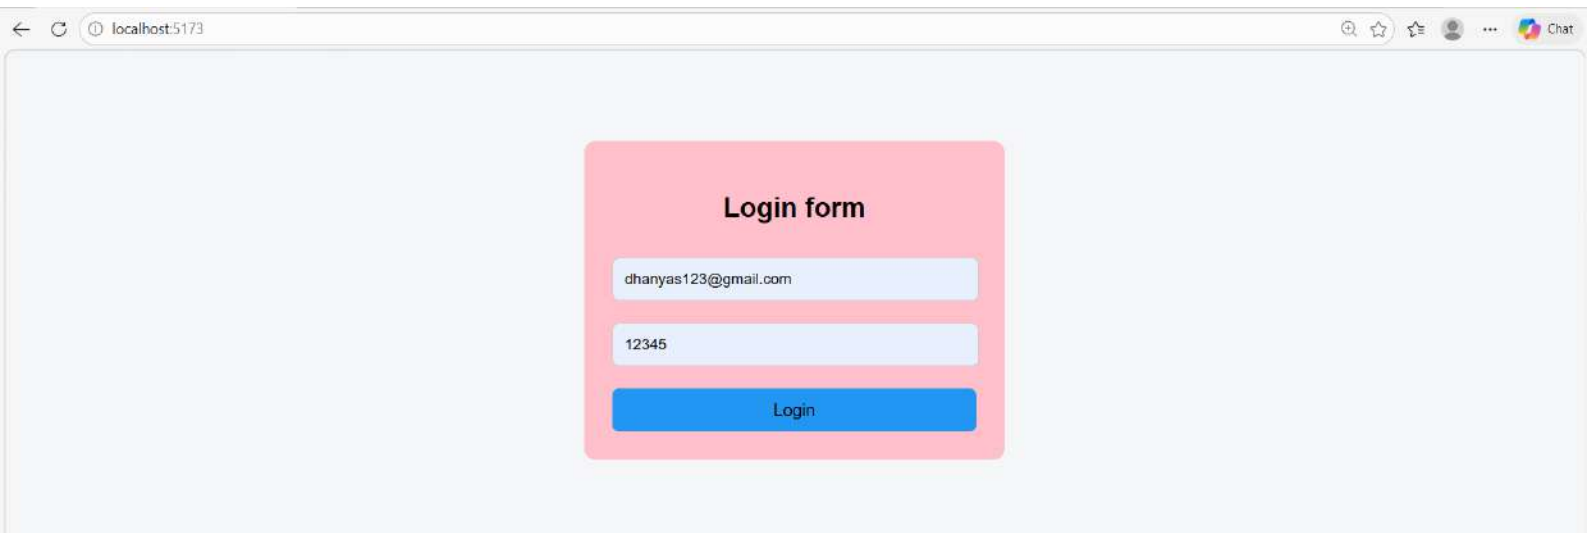

frontend > src > pages > Login.jsx > default

```
1  import React from 'react'
2  import {login} from "../services/authServices";
3  import { useState } from 'react';
4  import "../styles/Login.css";
5
6  const Login = () => {
7    const [form,setForm]=useState({
8      email:"",
9      password:""
10   });
11
12   const handleSubmit=async(e)=>{
13     e.preventDefault();
14     const res = await login(form);
15     localStorage.setItem("token",res.data.token)
16     alert("login successfull");
17   }
18   return (
19     <form onSubmit={handleSubmit}>
20     <h2>Login form</h2>
21
22     <input type="text" placeholder='enter email'
23     onChange={(e)=>setForm({...form,email:e.target.value})}/>
24
25     <input type="text" placeholder='enter password'
26     onChange={(e)=>setForm({...form,password:e.target.value})}/>
27
28     <button>Login</button>
29     </form>
30   )
31 }
32
33 export default Login
34
```

frontend > src > styles > # Login.css >  form button: hover

```
1  body {
2      margin: 0;
3      font-family: Arial, sans-serif;
4      background:  #f4f6f8;
5  }
6  form {
7      width: 300px;
8      margin: 100px auto;
9      padding: 25px;
10     background:  pink;
11     border-radius: 10px;
12     text-align: center;
13 }
14 form h2 {
15     margin-bottom: 20px;
16     color:  black;
17 }
18 form input {
19     width: 94%;
20     padding: 10px;
21     margin: 10px 0;
22     border: 1px solid  #ccc;
23     border-radius: 6px;
24     outline: none;
25 }
26 form input:focus {
27     border-color:  #4CAF50;
28 }
29 form button {
30     width: 100%;
31     padding: 10px;
32     margin-top: 10px;
33     background:  #4CAF50;
34     color:  black;
35     border: none;
36     border-radius: 6px;
37     cursor: pointer;
```

```
29 form button {
30     width: 100%;
31     padding: 10px;
32     margin-top: 10px;
33     background:  #4CAF50;
34     color:  black;
35     border: none;
36     border-radius: 6px;
37     cursor: pointer;
38     font-size: 15px;
39 }
40 form button:hover {
41     background:  green;
42     color:  white;
43 }
```
